

## The reform of the European Data Protection Directive in the light of cloud computing challenges

Presenters: Eleni Kosta and Dimitra Stefanatou

Contact: E.Kosta [at] uvt.nl and D.Stefanatou [at] uvt.nl

Abstract: The Data Protection Directive is currently under review. This presentation will present the main changes that are being introduced. It will focus on the principle of accountability, which has been brought in the spotlight, especially in relation to the allocation of roles and responsibilities in complex data processing environments, such as cloud computing and it will assess the likely impact of the reform on cloud computing.
